SCHMIDT

Snow cutter Type VF 1

for Unimog 411 and 421

Most successful snow clearing machine in its class with worldwide use. Served as a basis for the development of the larger VF 3, therefore identical design features. The compact design of vehicle and cutter head ensures extremely high mobility. Unsurpassed reliability and operational safety. Universally suitable for all types of snow, also for cutting in layers and for loading snow. Clearing width 6'8"/2,05 m to 7'3"/2,20 m, height of unit 4'/1,30 m. Driving engine Mercedes-Benz 135 HP.
